

# PERFORMANCE

It's an uplifting experience

Whether you are on the track with 1,400 HP pulling the wheels off the ground or in the field servicing a 100 HP engine that's pulling 500 BBLs of oil out of the ground... the real story is about **PERFORMANCE**

## This is EnergyLink's Story

Serving customers since 1999, Energy Link is a single source supplier to a wide range of industries including oil & gas, commercial, agriculture, food processing and construction. As a rotating equipment specialist, Energy Link delivers high quality **PERFORMANCE** equipment and shop or field services.

The highest levels of performance come to people who are industrious, intuitive, creative and enjoy life. The Race Track is for fun.

Energy Link has over 50 experienced mechanics and technicians, welders and fabricators who are race fans and ready to take your compressor, pump or engine apart and put it back together -ready to work. We have 40 service trucks on call 24X7, even on race weekends.

Twenty four hours a day, seven days a week. Working long hours is nothing new for Energy Link. In fact, the industry necessitates round-the-clock work. Most of our business is based on customer loyalty, and the majority of our opportunities are made in the field. We're out there with our customers -building relationships. Energy Link wants our equipment and services to make sense for client's bottom line.

**PERFORMANCE...** its in our DNA at the race track or in the field.
