

The Mechanic has been the muscle, bone, and stamina of the oil and gas industry in California for over 100 years.

We are the muscle for your success™

Energy Link is a single source supplier for many companies in the energy industry.

We are well known at many Oil & Gas facilities as a trusted rotating equipment specialist and mechanical services contractor.

Energy Link provides world-class equipment maintenance and is intimately familiar with Oil & Gas operations, processes, and safety standards.

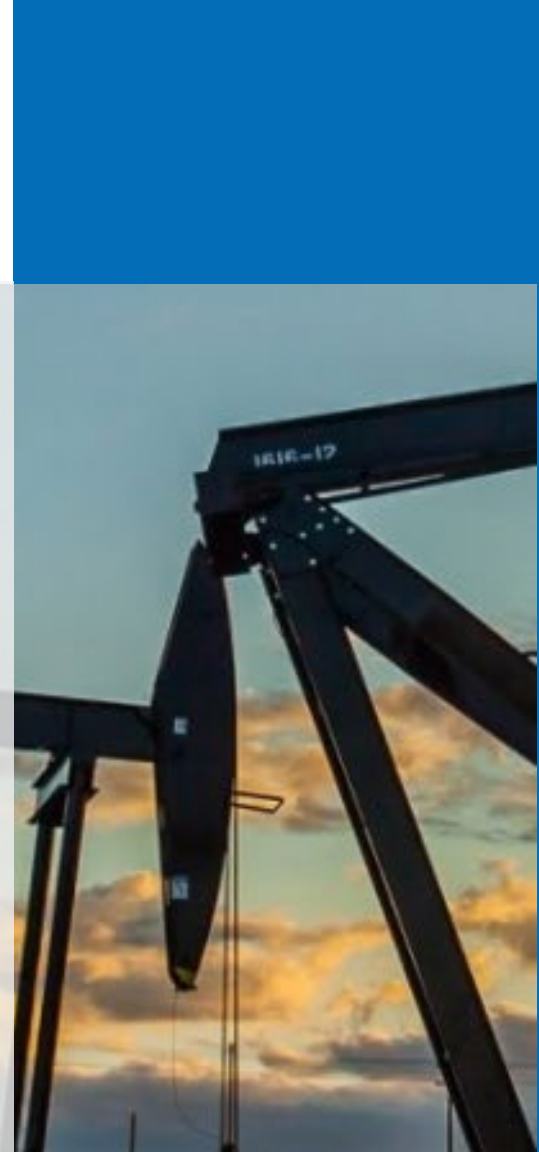

Our Credentials

- California Contractors Licenses:
 - Class A - General Engineering
 - C-7 - Low Voltage Systems
 - C-60 - Welding
 - C-61 - Specialty
 - C-10 - Electrical (in-process [COVID Delayed])
- ASME Code Shop with V&R Stamps
- ISO 9001:2015 Quality Management Systems (application in process)
- Factory Trained Technicians for Ariel Compressors
- Factory Authorized Packager for Ro-Flo Compressors (LeROI/Boss)
- Waukesha Qualified Power Systems Service Provider

Energy Link Attributes

- Responsive and Nimble
 - Crews can quickly expand, or contract as required
- Qualified
 - Millwright and Mechanical Field Work
 - Our expertise includes Catalytic Converters, Engines, Gas Compressors, Pumps, and ASME Pressure Vessels
- Experienced
 - 14 Years serving as a mechanical contractor
- Safety
 - Priority Safety Management is our proprietary safety program
 - PEC, ISN, Premier, and NCMS
- Protecting the Environment
 - ESG awareness
 - Good environmental steward

Lowering Production Costs per Barrel

- Work crews can be expanded or contracted as projects dictate, optimizing overhead costs and minimizing downtime.
- Implement a comprehensive preventive maintenance plan to decrease downtime, increase the equipment service life, and decrease inventory management costs for parts.
- Work closely with our client's finance team to design and develop a robust structure for reporting cost savings.

Potential Future Benefits

- Hydrogen compression
- Improved Operating Efficiencies
- Ease of Operations
- Increased Control
- Improved Communication
- Less Risk
